FWEA Internship Program FAQs

How does the internship program pairing work?

The FWEA SYPC reviews your Organization Interest Form, screens applicant resumes, and forwards candidates based on organizational needs.

Is my organization obligated to accept an intern if we participate?

No. Participation does not obligate your organization to accept an intern.

How many resumes will I receive and how often?

It varies by location, size, and your offerings. Expect a batch monthly during the application period.

I received interested intern applicant resumes. What do I do now?

Review them internally and let us know if the candidates aren't a fit and we'll adjust accordingly.

When does the Internship Program start and end?

It's designed for Summer 2026, but start/end dates are flexible based on you and the intern's agreement.

What is the timeline for the program?

Applications are open from Sept. 2025 through Dec. 2025. Candidates choose preferred organizations; SYPC sends resumes accordingly.

Are there any requirements for participating in the FWEA Internship Program?

Yes, please only participate if you plan to host interns. Review all resumes sent to you and notify applicants of your decisions.

What other programs do the FWEA SYPC offer?

The SYPC hosts an annual SDC poster competition, YP social, YP workshops, podcasts, and scholarship programs!
