

FIRST QUARTERLY LUNCHEON: Bringing SIX to Tampa's Tippin WTF: From Data to Decision

Date: Thursday, June 18, 2026

Registration: 11:30 am - 12:00 pm

Discussion: 12:00 pm - 1:00 pm

Location: The Columbia Restaruant

2117 E 7th Ave, Tampa

The City of Tampa Water Department evaluated, piloted, and ultimately moved forward with Suspended Ion Exchange (SIX) at the David L. Tippin Water Treatment Facility as a forward-looking strategy to improve water quality and expand plant capacity. This presentation follows the thoughtful, data-driven path that led to full-scale implementation, positioning Tippin as the first SIX installation in the U.S. and the largest in the world.
