

## 2024 CALL FOR NOMINATIONS

### FWEA WATER RESOURCES, REUSE AND RESILIENCY (WR3) COMMITTEE

The Florida Water Environment Association (FWEA) recently announced the opening of the nomination period for its prestigious [FWEA Awards](#). FWEA believes that individuals and organizations should be recognized for meritorious achievements in our industry. Awards are given in a variety of categories, including safety, operations, public education, and innovation. You may nominate yourself or another person or organization for these awards. Awards are presented at the annual FWEA Awards Luncheon held in conjunction with the [Florida Water Resources Conference on April 4, 2024](#).

The [FWEA Water Resources, Reuse and Resiliency \(WR3\) Committee](#) is currently accepting the following award nominations:

### 2024 Integrated Water Resource Professional of the Year

The Integrated Water Resources Professional of the Year Award recognizes a water resources professional who has set an extraordinary record in Florida of achievement in making, designing and/or implementing water resources policy or projects at the local and the regional levels.

Credentials of a person for consideration for the award should be submitted online at [www.fwea.org/awards.php](http://www.fwea.org/awards.php). *Please note, the field of expertise of this individual and their FWEA affiliation are not deciding factors for selection.*

### 2024 David W. York Water Reuse Awards

The David W. York Water Reuse Awards recognize exemplary water reuse systems, projects, organizations, and individuals in the following award categories:

- Reuse System of the Year (4 size categories)
- Outstanding Reclaimed Water Customer
- Water Reuse Person of the Year
- Reuse Project of the Year

The Reuse System of the Year award category is open to all types of reuse facilities that provide a beneficial use of reclaimed water, including those without public access irrigation. The award nomination forms and instructions may be obtained from the [FWEA Awards website](#) or by contacting [shanin.speasfrost@floridadep.gov](mailto:shanin.speasfrost@floridadep.gov). *Each year the FWEA WR3 Committee also submits the David W. York Water Reuse Award winners for consideration for the national WateReuse Association Awards program!*

- **For more information about the awards, including past recipients, or to submit a nomination go to [www.fwea.org/awards.php](http://www.fwea.org/awards.php).**

### About FWEA

The Florida Water Environment Association (FWEA) began its existence in 1941 and is a member association of the Water Environment Federation (WEF). The mission is to unite water quality professionals responsible for protecting Florida's clean water environment through education programs, professional development, and promotion of sound public policy. These three goals are carried out by the association's committees, local chapters, student chapters, and the FWEA Utility Council. For more information, visit [www.fwea.org](http://www.fwea.org).

**Nomination applications are due February 29, 2024.**  
**Online submittals only up to February 14th. After that email nomination to**
